Next: real money, more to call, rooms that pay.

Solana	Market and social programs on a chain built for this loop.
Real money	Mainnet, and card checkout so a first deposit takes no crypto.
More to call	Live sport in play, equities beyond the opening ten.
Rooms that pay	Private leagues and entry pots, so a group is worth running.

Billions are already bet on being right. None of it is fast, none of it is social.
